

Company Profile

Spares Center Rotterdam B.V.

Masters in Supply of Marine Equipment

About Us

Founded in 1983, Spares Center Rotterdam (SCR) is an independent technical supplier serving the global maritime, offshore, cruise and industrial sectors. From our headquarters near the Port of Rotterdam, we provide customers worldwide with genuine OEM spare parts, technical equipment and procurement solutions that keep operations running efficiently.

For more than four decades, our mission has remained the same: delivering the right parts, at the right time, from the right manufacturer.

Today, SCR combines extensive technical knowledge with an international supplier network and modern digital procurement technology, enabling customers to source thousands of marine and industrial products through a single trusted partner.

What We Do

We specialise in the sourcing and global supply of technical spare parts and equipment for:

- Commercial Shipping
- Offshore & Energy
- Cruise Industry
- Shipyards & Repair Yards
- Industrial Facilities
- Marine Service Companies

Our procurement specialists source products directly from leading OEM manufacturers and authorised distributors, ensuring quality, traceability and competitive pricing.

Whether a customer requires a single urgent spare part or support for a complete maintenance project, our experienced team delivers reliable procurement solutions with fast response times.

Product Expertise

Our product portfolio includes, but is not limited to:

- Marine Engine Parts
- Pumps & Fluid Handling
- Bearings & Power Transmission
- Valves & Actuators
- Hydraulics & Pneumatics
- Electrical Components
- Industrial Automation
- Instrumentation & Control
- HVAC & Refrigeration
- Safety Equipment
- Deck Machinery
- Filtration Systems
- Compressors
- Heat Exchangers
- Mechanical Components

Industries We Serve

Marine

Supporting merchant vessels, dredgers, tankers, offshore support vessels, fishing vessels and inland shipping with reliable spare part procurement.

Offshore

Providing technical equipment for offshore platforms, FPSOs, drilling operations and renewable energy installations.

Cruise

Supplying cruise operators with technical spare parts that minimise downtime and ensure passenger comfort.

Industrial

Supporting industrial facilities with high-quality mechanical, electrical and automation components.

Why Spares Center Rotterdam

- Established in **1983**
- More than **40 years of technical procurement experience**
- Independent supplier with access to thousands of manufacturers
- Genuine OEM and high-quality replacement parts
- Worldwide logistics and express shipping
- Fast quotation turnaround
- Experienced multilingual procurement specialists
